## Our Services

Stop losing vital revenue in your medical practice. CardioVascular Imaging is your one-stop source to all your medical imaging needs. We strive to give you professional mobile ultrasound services in the Tampa Bay area that are cost-effective and convenient.

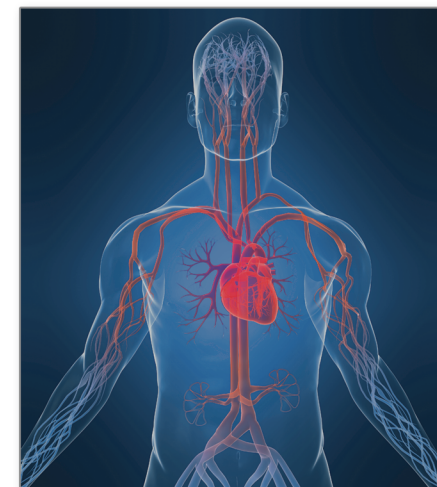

We know your medical practice will benefit greatly from our ultrasound service. From now on, all your ultrasound imaging can be performed right there at your office. No need to refer patients to another service, thereby losing potential revenue.

Utilizing our ultrasound service brings ease and convenience for your patients. They will appreciate having the exam performed in the comfort and familiarity of your office. This also allows you the ordering physician to be more involved in your patients results.

Cardiovascular Imaging, LLC is a multi-modality Ultrasound Service that provides Cardiac, Vascular and general ultrasound studies. All of our registered sonographers are certified in all 3 ultrasound modalities. Here is a list of ultrasound exams that we can offer to your medical practice:

- \* Echocardiogram
- \* Carotid Ultrasound
- \* Lower Extremity Arterial Doppler w/ ABI's
- \* Upper Extremity Arterial Doppler
- \* Lower Extremity Venous Doppler
- \* Upper Extremity Venous Doppler
- \* Abdominal Ultrasound
- \* Retroperitoneal (Kidney & Aorta) Ultrasound
- \* Thyroid Ultrasound
- \* Renal Artery Doppler
- \* Abdominal Aorta Ultrasound
- \* Bladder Ultrasound
- \* Testicular Ultrasound
- \* Cardiovascular Screenings

We provide your medical practice with state of the art ultrasound equipment, registered sonographer, all medical equipment for the exams. We also, provide the image and reporting archive system.

If you have any interest in providing an in-office ultrasound service for your patients, please contact Elliot Schroeder
